2016 Autumn Children & Tween Programs

Preschool Fun

Every Child Ready to Read is an early childhood literacy program, developed by the American Library Association, for children from birth to age five.

Studies show that children get ready to read years before they start school. Parents and caregivers play a critical role in developing early literacy skills in children beginning at birth. Library staff will demonstrate ways to help children get ready to read by incorporating five simple activities: talking, singing, reading, writing and playing.

Every Child Ready to Read gives parents fun ideas and hands-on activities. All Ready to Read sessions are free drop-in programs.

Programming at Mill Street is on hiatus as we prepare for and undergo renovations. The project is scheduled to be completed this fall.

The programs in this brochure are subject to change. Please ensure you check the library website and Facebook page frequently for the most recent updates on all of our children's program offerings as more programs may be added: www.orangevillelibrary.ca.
