Orangeville Police Service is asking dirt bike and all-terrain vehicle riders to keep out of former gravel pit lands on Veteran's Way. The public is reminded that this land is private property and not for public use.

Police are also concerned with riders using roadways to travel to and from the land. Dirt bikes and all-terrain vehicles need to be licensed, insured and in safe operating condition. Riders must possess the appropriate classification of driver's license to lawfully operate the vehicles.

If caught on the roadway or operating a dirt bike or all-terrain vehicle on these lands, riders can be charged with a number of offences, including trespassing and operating a motor vehicle without a licence/insurance.

Concerned residents may file a report with the Orangeville Police Service by calling 519-941-2522.

Fire Hydrant Flushing and Maintenance Programs

To Users of the Following Water Systems:

- Orangeville Water System
- Cardinal Woods Water System (Mono)
- Coles/Island Lake/Purple Hill Water System (Mono)

Please be aware that from April 20 to July 31, 2020 between 8 a.m. and 3:30 p.m. Monday through Friday each week, Orangeville Water Works Staff will be completing fire hydrant flushing and maintenance programs in the water systems noted above. The programs are completed on a regular basis to ensure fire hydrants remain in good working order and that any accumulated sediments in the water mains are removed.

Due to possible sedimentation, the flushing may cause discolouration of the water, so please check your cold water supply before use. If discolouration does occur, run the cold water until it clears.

Users of the Orangeville and Mono water systems are also reminded that Water Works Staff will continue regular flushing of fire hydrants in selected areas on subsequent Wednesdays as part of an ongoing maintenance program. Again, the water should be checked for discolouration before use on those days.

Your co-operation and understanding are appreciated during the fire hydrant flushing and maintenance programs.

Source Water Protection

Water Conservation

We need to use water responsibly to ensure a sustainable supply. If you are renovating, consider investing in water efficient appliances and fixtures such as ultra-low-flow shower heads, low-flow/dual flush toilets, and low-flow faucet aerators.
