## Notice of Virtual Public Information Centre – Town of Orangeville New Municipal Water Supply Municipal Class Environmental Assessment Study

### Study Overview

The Town of Orangeville (Town) has identified the need to increase the available water supply to accommodate anticipated growth, and to provide redundancy in the water supply network. The Town has initiated a Schedule B Municipal Class Environmental Assessment (EA) to determine a preferred solution to allow the Town to meet its future water supply capacity requirements.

### The Process

The Municipal Class EA process will define the need for an additional water supply, assess the potential impacts of the preferred solution, and identify measures to lessen potential adverse impacts. The Class EA process will also provide members of the public and interested parties with opportunities to provide input at key stages of the study.

### We want to hear from you

The Town is hosting a Virtual Public Information Centre (PIC) from October 26th to November 16th, 2020. The purpose of the PIC will be to present project information and gather feedback from the public.

Due to efforts to contain the spread of COVID-19, interested persons are invited to access presentation materials, ask questions, and provide comments online at: [https://data.orangeville.ca/apps\\_public.html](https://data.orangeville.ca/apps_public.html)

Project information sheets and feedback forms for individuals with limited access to internet will also be available at Orangeville Town Hall (87 Broadway) from October 26th to November 16th, 2020.

Your participation and feedback is important. All comments and questions received from October 26th to November 16th, 2020 will be part of the final Class EA.

For more information or to be placed on our mailing list, please contact the Project Team at the contacts below.
